PROFESSIONAL SUMMARY

Business Intelligence Consultant with 5+ years of experience designing Power BI dashboards, automating SQL/DAX data pipelines, and delivering executive-ready analytics across energy, logistics, real estate, and education sectors. Proven track record of measurable impact, including 25–40% improvements in KPI tracking and reporting efficiency.

EXPERIENCE

Independent Power BI Consultant

2025 – Present

Cushman & Wakefield (Client: Acelen Refinery – Bahia, Brazil)

- Designed and delivered a consolidated Power BI App integrating Financial, Operational, and Help Desk KPIs.
- Implemented Row-Level Security (RLS) for financial data governance.
- Automated daily dataset refresh and optimized DAX measures.
- Built dashboards for facilities maintenance, help desk (Movidesk), restaurants, cleaning services, and asset management.
- Delivered executive-ready analytics supporting cost control, operations, and supplier performance.

Business Intelligence Consultant

Apr 2024 – Present

Data Meters Consulting

- Improved KPI tracking by 25% through Power BI dashboards for a physiotherapy client.
- Streamlined real estate data reporting using SQL pipelines.
- Generated monthly HR attrition insights using Python and DAX.
- Optimized SQL databases to enhance operational efficiency.

Logistics & Supply Chain Analyst

Oct 2023 – Apr 2024

Ball Corporation

- Reduced reporting time by 40% through automated Excel dashboards.
- Applied ETL techniques and data mining to enhance reverse logistics forecasting.
- Analyzed SAP data to improve KPIs such as Average Handling Time (AHT).

Data Analyst & Instructor

Feb 2013 – Oct 2023

A.P.A.R.

- Improved student retention by 20% using performance analysis with SQL and Excel.
- Created Power BI dashboards to track learning outcomes and optimize training.
- Reduced manual data handling by 30% through automated data cleaning.
- Conducted data visualization workshops, increasing engagement by 15%.
